UNIVERSAL PEACE CONGRESS.

Begins its Sessions With a Large Attendance.

Lucerne, Switzerland, Sept. 20.—The universal peace congress began its sessions Tuesday in the Theater of the Kursaal, with 340 delegates in attendance. C. M. Comtesse, a member of the Swiss government, was elected honorary chairman and delivered the opening address. He outlined the progress of the pacific movement, pointing out, however, amid applause, the necessity for safeguarding the patriotic idea and providing for the national defense.

Frederic Passy on behalf of France also spoke in favor of a world-wide peace.

B. F. Trueblood of Boston read the report of the American delegates who presented a proposition analogous to that recently adopted by the inter-parliamentary congress at Brussels, favoring a second conference at The Hague for the purpose of drawing up an international arbitration treaty and also favoring periodical congresses for the discussion of questions relating to the limitation or reduction of armaments and the protection of neutral commerce against belligerents.

A Chinese delegate evoked applause by protesting against European military designs against China.

Elie Ducommun of Berne was unanimously elected president of the congress.

WANTS MONEY BACK

PAUL MORTON SEEKS TO RECOVER LARGE SUMS PAID OUT BY THE EQUITABLE.

SOCIETY NOT RESPONSIBLE

EXACT NATURE OF SOME OF THE TRANSACTIONS NOT YET FULLY REVEALED.

New York, Sept. 20.—That the Equitable Life Assurance society paid out \$218,264 to the Mercantile Trust company in connection with certain loans known as "the Turner loans," and that these payments were without authority so far as the records of the society disclose, became known Tuesday when Paul Morton, president of the society, made public a report on the subject submitted by him to the society's directors.

These transactions occurred in what Mr. Morton refers to as "the Turner loans." The "Turner loan," Mr. Morton's report sets forth, was carried in 1894 by the Western National bank, which was controlled by the Equitable Life Assurance society. The collateral for the loans was objected to by a bank examiner and Henry B. Hyde then agreed to transfer the loan and collateral to the Mercantile Trust company.

At that time, apparently, the loans amounted to \$661,491. George V. Turner, in whose name the loan stood was secretary to Louis Fitzgerald, then president of the Mercantile Trust company, and a close business associate of Henry B. Hyde. The loan was guaranteed by Marcellus Hartley, John E. Sarles, Louis Fitzgerald, W. N. Coler, Jr., and H. B. Hyde.

On March 21, 1895, the same guaranties renewed their guaranty, the loan having grown to \$1,276,478, the increase being due to attempts to develop the property on which the collateral for the loan was made. Part of this collateral was given by John W. Young and consisted of Salt Lake and Western railroad stock and other Salt Lake stocks. This collateral proved to be of little value.

Other collateral consisted of contracts of Kentucky Mineral and Timber company and the Amity Land and Irrigation company of Colorado. Attempts were made to develop the Kentucky property and the Colorado property, and large sums were expended for that purpose, and by July 1, 1905, the cost of the Kentucky property stood at \$619,067 and the Colorado property at \$2,809,633.

The Equitable Life Assurance society paid the Mercantile Trust company \$218,264 on these loans on Jan. 23, 1900, and \$500,000 on Feb. 4, 1904. "The records of the society," said Mr. Morton, "disclose no authority whatever for these payments and the cash entries in respect to them were very obscure."

Mr. Morton referred the matter to special counsel, who have assured him that the Equitable Life Assurance society is not responsible for the loans. Mr. Morton has also notified the Mercantile Trust company that he will expect it to repay the \$218,264 paid to it by the Equitable.

Mr. Morton found that \$265,000 was paid by the Equitable to the Mercantile Trust company on the \$685,000 loan, the nature of which loan has never been explained. Counsel have been instructed to begin proceedings for the return of this sum.

GERMAN VESSEL DAMAGED.

Towed Into Halifax by a British Tank Steamer.

Halifax, N. S., Sept. 20.—The North German Lloyd steamer Bremen, Captain Nierich, from New York, Sept. 14, bound for Bremen, was towed here Tuesday by the British tank steamer Lucigen, from Shields, Sept. 5, for Philadelphia. The port tail shaft of the Bremen broke on the afternoon of Sept. 15 and the accident damaged the starboard propeller.

Attempts which were made by the engineers to repair the damage were unsuccessful and the steamer rolled helplessly in the heavy swell.

At 8 a. m. on Sept. 16 the Lucigen was sighted, answered the Bremen's signals of distress and took the German boat in tow.

Divers will make an examination of the steamer.

The agents here have been notified that the North German Lloyd company would send a steamer from Baltimore to take the passengers.

American Drowned.

Palermo, Sicily, Sept. 20.—While the Hamburg-American line steamer Prinz Oskar, from Genoa, bound to Naples and New York, was entering the harbor here, William Rens, an American, jumped overboard and was drowned.

ARRAIGNS FORMER AUDITOR.

Governor Hanley of Indiana Says He Gambled.

Hamilton, Ind., Sept. 20.—In an address at the reunion of the Thirtieth Indiana regiment Tuesday Governor Hanley, the principal speaker, made public his reasons for his action in the case of David E. Sherrick, ex-auditor of state, whose resignation was forced by the governor. Facts and figures were used to show what became of the money belonging to the state that was lost by "David E. Sherrick, auditor of state and common gambler."

The governor charged that \$10,000 of the state's money "went by check into the hands of the gentlemen who was then operating the casino" at French Lick. The governor then enumerated a list of what he called "wild cat securities" aggregating a face value of \$75,000 into which the state's money went. Following, he charged that Sherrick's continued absence from the sessions of the state board of tax commissioners "was occasioned by drinking bouts and midnight carousals around the gambling tables from which he could not recover in time to meet with the commission."

He charged that Sherrick at the time the Monon railway came up for assessment argued that the assessment be allowed to remain at \$18,000 because in that case a friend of his to whom he was under great obligation personally could get permanent employment with the company if the assessment could be kept at \$18,000. He also claimed that Sherrick practically turned his office into a broker's office to deal out railroad passes to legislators in return for their votes for legislation in favor of certain railroad interests for which Sherrick was alleged to have been working.

When the governor demanded Sherrick's resignation, he said friends of Sherrick told him that if the defalcations were kept secret and Sherrick retained in office, the money would be raised. The governor says he learned that representatives of large railway interests were to furnish the money, so he declined to make the bargain.

ALICE ROOSEVELT AT SEOUL.

Rides From Station to Palace in the Imperial Palanquin.

Seoul, Sept. 20.—Through streets crowded with white robed Koreans and lined by the imperial bodyguard standing at "present arms," Miss Alice Roosevelt, riding in the imperial yellow palanquin, Tuesday evening triumphantly passed from the railway station to the royal palace. The roadway had been freshly paved and the shops draped with Korean and hastily hand-painted American flags.

Miss Roosevelt, Rear Admiral Train, Senator and Mrs. Newlands, the Misses Boardman and McMillin and Congressmen Longworth and Gillette arrived at Chemulpo Tuesday morning. The American minister and staff and a number of Koreans greeted the party, which proceeded to Seoul by a special train. The imperial carriage, which is only furnished to royalties, was placed at Miss Roosevelt's disposal. The court chamberlain met the party at a half-way station on behalf of the emperor with inquiries as to Miss Roosevelt's health.

On arrival at Seoul the party was hailed by a Korean band, which played "The Star Spangled Banner," Korean policemen and Japanese gendarmes guarded the roadway and grotesquely clad retainers bore long lanterns. The passage of the party along the streets was everywhere heralded by the bugles of troops.

Miss Roosevelt and Mrs. Newlands are guests of the American minister, and the rest of the party are staying at the imperial palace.

ARMY OF THE CUMBERLAND.

General G. P. Thurston of Nashville Elected President.

Chattanooga, Tenn., Sept. 20.—General Gales P. Thurston of Nashville was unanimously elected president of the Army of the Cumberland in annual reunion here. The other officers chosen were: Corresponding secretary, Major W. J. Colburn; recording secretary, Orland Summers; treasurer, Brigadier General Frank G. Smith, U. S. A.; historian, Colonel G. C. Kniffen.

A letter from President Roosevelt expressed his regret that he could not be present at the convention and one from Admiral Cervera of Spain expressed his sorrow that he could not accept the invitation.

WHILE WAITING FOR HIS WIFE.

Illinois Man Killed by Train in Which She Arrived.

Chicago, Sept. 20.—While waiting to meet his wife at the Sixty-third street station of the Illinois Central railway Tuesday night, W. P. Appleyard, superintendent of construction of the Pullman company, was run down and killed by the locomotive drawing the train on which his wife was returning from an Eastern trip. Although hearing that a man had been killed, Mrs. Appleyard did not know that her husband was the victim until two hours later, when his dead body was brought to their home.

LOGGING TRAIN

DUMPED IN DITCH

Minnesota & International Logging Train in Ditch Near Turtle North of Walker

PASSENGER NECESSARILY LATE

Track is Cleared in Short Time, But Passenger is Several Hours Late Here

There was quite a disastrous wreck on the Minnesota & International this morning near Turtle. A logging train was ditched near Turtle and some twelve or thirteen cars were piled up.

Fortunately none of the trainmen were injured, but it was a close call. The wrecking train was sent out at once and good progress was made in clearing the track, but it was several hours before this was done and the passenger was held up for about four hours.

The wreck is supposed to have been caused by the spreading of rails.

A good story is told on the old fire horse which was sold to John Gilmer on Monday evening. The horse was hitched up yesterday with another horse and was driven into the country after a load of hay. While loading the hay some farmer boy rang a cow bell and the old horse laid back his ears and sprang through a wire fence and sailed up the road. It is said the way the hay was scattered was a caution.

Do so well today that you need not long for tomorrow.

Some men only want your confidence to give it to others.

If a man were his own enemy, what stories he could tell on himself!

Don't judge a man by his first friends; judge him by his last.

Don't give your friends indignation by trying to poke people you like down their throats.

Spencer and the Great Riddle.

To every aspect of the problem of life Herbert Spencer must have given thought, but he has plainly declared that the human intellect as at present constituted can offer no solution. The greatest mind that this world has yet produced—the mind that systematized all human knowledge, that revolutionized modern science, that dissipated materialism forever, that revealed to us the ghostly unity of all existence, that re-established all ethics upon an immutable and eternal foundation—the mind that could expound with equal lucidity and by the same universal formula the history of a gnat or the history of a sun, confessed itself before the riddle of existence scarcely less helpless than the mind of a child. —Lafcadio Hearn in Atlantic.

Queer Books.

Among the world's queerest books is "Tharamond, or, The History of France. —A Fam'd Romance, in Twelve Parts." It was "written originally by the author of 'Cassandra and Cleopatra,'" and it was "Englished" by J. Phillips, Gent., and published in London in folio in 1677. "Tharamond" runs to 1,173 closely printed folio pages, which contain in all some 1,073,295 words. That is to say, it equals in length ten modern novels of about 100,000 words apiece. Sir Philip Sidney's "Arcadia" works out, interspersed poetry and all, at some 400,000 words, or four modern novels.

The DISPATCH will be delivered at your door for 40 cents per month.

FEROCIOUS FRIENDSHIP.

An Incident in the Life of the Tragedian Macready.

Between Macready and my brother Charles existed a kind of ferocious friendship. Macready, whatever he may have been in private life, had at the theater a simply horrible temper and he was in the habit of using at rehearsals and even in an undertone when acting the most abusive language—language which my brother sometimes passed by with a smile, but which he occasionally hotly resented. He did not mind Macready constantly addressing him as "beast," but he objected to having his eyes, his limbs and his internal organs coupled with invective terms. Yet, oddly enough, the great tragedian, with whom he was constantly quarreling, had a grim respect and liking for him. He knew him to be a gentleman and a scholar and one who was a competent judge of picturesque effect and an acute dramatic critic. On one occasion Macready having to play "Othello," and my brother not being included in the cast, the tragedian thus addressed him: "Beast, I want you to go in front tonight and give me afterward a full and candid opinion as to the merits of my acting. Omit nothing. Tell me how I played and how I looked. I have an idea that I shall surpass myself this evening." Now, the great actor used to go through a tremendous amount of realistic effort in the part of Othello and toward the close of the tragedy would get into such a disorganized physical condition that he was all perspiration and foaming at the mouth and presented a somewhat shocking spectacle.

My brother duly occupied a seat in the front row of the dress circle and narrowly watched the performance from beginning to end. Then he went behind the scenes and repaired to Macready's dressing room. The artist was being disrobed by his dresser and was panting with excitement in an armchair.

"Well, beast, what was it like?"

My brother told him that he had derived the highest gratification from the performance and he had never seen him play Othello more superbly. He was magnificent in his speech to the Venetian senate, the jealousy scenes with Iago were splendid, the murder of Desdemona was superb, and he died imitantly. Macready's face lighted up more and more as my brother answered his many queries.

"'Tis well, beast," he observed at last. "'Tis well—very well, and, now what was my appearance—how did I look, beast?"

My brother cogitated for a moment and then, with perfect candor, replied, "Like a sweep, sir!"—G. A. Sala's Recollections.

Unloaded on the Editor.

Soon after arriving in London Justin McCarthy obtained an introduction to an editor who had started what was then the novel feature of publishing short stories in newspapers. Mr. McCarthy wrote a story for him and sent it in. A few days later he called at the office to learn its fate.

"I hope you can see your way to accept it," he said timidly.

"Yes, and sixty more like it," replied the editor.

Nothing more was heard of Mr. McCarthy for several months. When he eventually put in an appearance at the office he had a large parcel with him.

"What have you got there?" asked the editor, seeing him untie the cord.

"These are the sixty stories you asked me to write," answered his visitor. The editor gasped for breath.

"But I didn't ask you to write anything like that number!" he said.

"You expressed your willingness to accept sixty stories like the one I wrote on approval, and here they are. I merely took you at your word," quoth the young Irishman. The stories were not refused.

The Salamander.

In Andrews' "Anecdotes Ancient and Modern" (1789) one reads, "Should a glass house fire be kept up, without extinction for a longer term than seven years, there is no doubt but that salamander would be generated in the cinders." This probably accounts for the popular idea that a salamander lives in the fire, a fallacy so far removed from the truth that the curious lizard-like beast so called cannot endure even the heat of the sun, but skulks away under stones to avoid it. It will never lose its reputation for fire eating, though, which lingers still in the heating utensil that is named after it.

Dickens and Thackeray.

"I once missed meeting Dickens at Chatsworth. He left the day of my arrival," writes Leveson-Gower in his memoirs. "Thackeray came that same afternoon and was anxious to hear about Dickens' visit. He wondered whether he had toadied the duke very much. My impression is that, though professing to be friends, these two great novelists did not care much for one another."

A Careful Wife.

Hubby (desperately)—Give me your clothesline. I'm going to hang myself. Wifey (sweetly)—Oh, George, I'm so sorry. This clothesline is so rotten it won't hold you. You'll have to buy one, dear!—Cleveland Leader.

Sad Result of Experiment.

Aunt Ann—You think John no longer loves you? New Wife (sobbing)—I know it, auntie! I put on an ugly old hat this morning and he never noticed the difference!—Chicago Tribune.

Most people think when they receive a favor that it is merely a sample, and that if the goods suit they can come back for more.

THE TESTIMONY

In the Case of Sheriff O. P. Erickson Against the County Commissioners

A WADENA LAWYER AS REFEREE

Attorney Broker Appointed After Attorney Blanchard of Little Falls Declined

There is a hearing on this afternoon at the court house in the case of Sheriff O. P. Erickson vs. the County Commissioners of Crow Wing county before Attorney Broker, of Wadena, appointed referee by Judge W. S. McClenahan. Attorney Blanchard, of Little Falls, was first appointed as referee in this case but he declined to serve and Attorney Broker was named.

This action was brought by the sheriff to collect some \$423.47 in fees claimed to be due him from this county. The testimony which will be adduced by the county is intended to show that Sheriff Erickson padded his accounts, etc., and it is thought will be rather spicy as there has been a rather severe strife on for some time between the sheriff and the commissioners.

Attorney A. T. Larson appears for Sheriff Erickson and Attorney A. D. Polk is looking after the interests of the county.

Here's a Brainerd case: Mrs. S. Brainard, of 601 S 10th St., Brainerd, Minn., says: "I could not do otherwise than endorse Doan's Kidney Pills, and time after time I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. Both these preparations should be known to every sufferer."

TWENTY DRILLS
NOW WORKING

John L. Morrison Vistited Brainerd Yesterday and Went out To the Big Shaft

WORK TO COMMENCE ON SEC. 22
Schenango People Will Sink a Shaft if Ore is Found on This Property

John L. Morrison, the mining expert of Duluth, was in the city yesterday and went out to some of the locations where they are drilling on the Cuyuna and also visited the big Pickands-Mather company shaft on Section 8. Mr. Morrison is the man who furnishes a lot of good material for the Duluth Herald on the Cuyuna range. He has been in the mining business all his life and while he has not had the experience in mining ore that he has had in mining gold he has a very good knowledge of formations, etc., and knows perhaps as much if not more about the Cuyuna range than any other man.

Mr. Morrison is very sanguine as to the future of the Cuyuna and he talks interestingly and entertainingly of the prospects of the range.

He says there are about 21 drills now at work on the range in different localities. George Crosby of Duluth has five of these drills at work. The drill was moved out on the Schenango company property on Sec. 22 yesterday afternoon and actual drilling will commence today. This is but 4 miles from Brainerd.

The center of interest on the Cuyuna is naturally at the big shaft and any news from there is eagerly looked for. The fact that they have struck iron at a depth of eighty feet has caused considerable excitement. They did not expect to encounter ore until they had crossed the shaft. The shaft was sunk at least 125 feet away from where the drill was put down, but it was expected to go down about 150 feet and then cross-cut and work under the body of ore. This they will do any way, but they are taking ore out now in getting down to the 150 foot level. Mr. Morrison stated yesterday that this ore was not of the best grade, but notwithstanding this it showed clearly that it is a good leader to the larger body and higher grade of ore.

At Swartz driving park it is understood that prospects have not been so good. The drill has been moved five times and it is now on the north side of the track. It is not learned but it is believed that nothing has been found on this property.

Mr. Morrison stated yesterday afternoon that there was a deal pending at Duluth the consumation of which would mean that another drill would be started on the range in a few days.

Of all the drills that are at work for the different interests it should result in something. It is not expected that every concern that is drilling will sink a shaft even if ore is found, but there are a few concerns such as the Pickands-Mather company and the Schenango Furnace company who will surely push the work to rapid completion if there is the slightest indications that they will succeed.

MUSIC AND DRAMA.

"WHEN KNIGHTHOOD WAS IN FLOWER".

In "When Knighthood Was In Flower" Miss Roselle Knott has been fortunate enough to find a worthy opportunity for a display of her infinite talent and cleverness. She more than pleases in every respect. Her interpretation of her role is more than satisfying; deft touches here and there have made it her own creation and not an imitation. As "Mary Tudor" Miss Knott presents a character which never allows the interest in it and the play to abate; a lovable character, marked as it is by the oppositions of a hot temperament which will bestow the hand only where the heart has gone. As Mary Tudor, action is requisite, hence there is a danger of overexuberance. But Miss Knott never overacts, nor does she make the opposite mistake. One feels that her quick, passionate movements are the result of instinct with natural impulse. But dignity, the dignity of a King's sister, is always ready when need arises to bring into the play. The coquetties of a lovely and loving woman; the courage which makes a woman ready to sacrifice for the man she loves; the dignity of the Queen of France—outwardly resigns to her fate—the final triumph of a lone woman over her enemies and the sweet womanhood of a wife when finally she is united with the man of her heart's choice; all these phases and more are portrayed by Miss Knott with a finely shaded artistry growing out of wondrous ability, a thorough comprehension of her part and complete sympathy with it.

"THE MARRIAGE OF KITTY."

Jules Murry's excellent company, headed by that clever artiste and entertainer, Miss Alice Johnson, is scheduled for appearance in this city presenting "The Marriage of Kitty," at the Brainerd opera house, on Wednesday, Sept. 27. It is refreshing to chronicle the coming of such a play and company, as to attend such a performance is well calculated to make one forget all the troubles of a bad day. It is a wholly commendable performance, never marred by a single deficiency of detail or performer, a fact for folks who like what is best and cleanest in stage offerings and who love the hearty laugh that springs from real satire, wit, clean humor and repartee.

BOGUS PYTHIAN
HAS BEEN NABBED

Experience of Walter Towers of This City With An Imposter In the East

MAN WAS ARRESTED AT TOLEDO
And was Given Sixty Days in the Workhouse and Fined \$100 And Costs

The following from the Pythian Advocate shows how they use imposters down at Toledo, Ohio:

"Some few weeks since, Knight Walter Towers, of Brainerd, Minn., while traveling in the East, met and freely mingled with the members of this order. He met a chance acquaintance who assured him that he was a Pythian, and during their conversation the "other fellow" secured possession of Bro. Tower's official receipt. Towers returned home to Brainerd, thinking no more of the incident of this meeting one whom he presumed a K. P. friend until word commenced to reach White Cross Lodge No. 30, inquiring as to the standing of Walter Towers, with information that a man claiming to be Towers, had been extended financial assistance. Such operation was reported from K. P. lodges in Massillon, Elyria, Newark and Youngstown, Ohio, and also from Sheradenville, Pa. It was then that the officers and members of the Brainerd lodge appealed to the G. K. R. S. of Minnesota, turning over all the evidence of the rascality. The G. K. R. S. sent out a letter of warning, and among others sent word to Bro. Wm. Beatty, G. K. R. S. of Ohio.

"The letter to Bro. Beatty reached him on the morning following a visit of the imposter to Bro. Beatty's own lodge, where the bogus 'Bro. Towers' had been relieved to the extent of another \$5. Then the fun commenced, and the imposter was rounded to in short order by the police authorities, who lodged him in jail. His case came before Judge Wachenheimer on the following Monday, and with the local evidence, coupled with the letter as sent by the G. K. R. S. of Minnesota, the culprit was given sixty days at the Toledo workhouse and fined \$100 and costs, and now he is busily employed in making brick for the city of Toledo. Down in that country they make such vagrants and imposters work out their fines, and on the basis of a small daily compensation, this particular artist in the fraud line will luxuriate in the brickyard for the better part of the next year."

SWINDLER UNDER ARREST.

First of a Clever Gang Captured in New York.

New York, Sept. 20.—In the arrest Tuesday of Davis Chatterton, the police are of the opinion that they have run to earth the first of a clever gang of swindlers whose operations have puzzled the officers of the New York Edison company for over a year and have caused a loss to the company of from \$50,000 to \$75,000 within that time.

According to the police the method employed by the swindlers was to have one of their number go to a subscriber of the company and make a proposition to reduce the bill of the company at least one-half, providing the subscriber pay the man who made the proposition one-half of the money thus saved. The reduction in the amount of electricity registered by the meter was effected by the device of putting in a concealed loop or switch running outside the meter. Chatterton, it is alleged, was engaged in putting in one of these switches when he was arrested. Many other arrests are expected.

If you cannot eat and digest three good, square and satisfying meals each day without discomfort, your stomach needs Mi-o-na tablets. They are not a mere temporary relief, but are composed of valuable medicinal agents which strengthen the digestive organs, and cure and prevent stomach troubles.

When there are pains or distress after eating, head aches, belching of gases, a sour taste in the mouth, dizziness, heart

burn, specks before the eyes, furred tongue, sleeplessness, nervousness, or backache, the stomach needs the help of Mi-o-na.

Every reader of The Dispatch should grasp the opportunity offered by H. P. Dunn & Co. to try Mi-o-na at their risk. Just one little tablet out of a 50 cent box of this remedy before each meal for a few days, and you will soon have a strong stomach and perfect health.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE**, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use **LION COFFEE**, because to get best results you must use the best coffee. Grind your **LION COFFEE** rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. **WITH BOILING WATER.** Add boiling water, and let it boil **THREE MINUTES ONLY.** Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. **WITH COLD WATER.** Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3. Don't boil it too long. Don't let it stand more than ten minutes before serving. Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground **LION COFFEE** before boiling.

2d. With Cold Water Instead of Eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine **LION COFFEE**, prepare it according to this recipe and you will only use **LION COFFEE** in future. (Sold only in 1 lb. sealed packages.) (Lion-head on every package.) (Save these Lion-heads for valuable premiums.)

REPORT IS ENCOURAGING.

Yellow Fever Situation at New Orleans Improving.

New Orleans, La., Sept. 20.—Following is the official yellow fever report up to 6 p. m. Tuesday:

New cases, 34; total cases to date, 2,639; deaths, 4; total deaths, 345; new sub-foci, 3; cases under treatment, 321; cases discharged, 1,973.

The daily report continues encouraging, and is especially so in the matter of deaths and new sub-foci. Of the new cases only six are above Canal street, while the deaths are all from below Canal street. Two men who were in the Avondale detention camp, Jean Boussegoux and Archia Murray, were stricken with the fever early in the morning and were immediately brought to the city and taken to the emergency hospital. They came from the Orleans hotel, a caravansary in the center of the infected district. Country reports are:

Kenner, 3 new cases, 1 death; Alexandria, 2 new cases; Harvey's canal, 1 case; Amelia, 4 cases; Bayou L'Ourse, 3 new cases; Bayou Boileau, 1 new case; St. Rose, 1 new case; Grand Isle, 1 case; St. Bernard parish, 2 new cases; Bayou Natchez, 4 new cases, 1 death; Tallulah, 6 new cases, 1 death; Patterson, 6 new cases, 2 deaths; Houma, 2 cases.

There now are only six persons sick at Leesville, and one death occurred Monday.

There are now 49 cases under treatment at Cote Blanche, on Bayou la Fourche.

Dr. White's assurance to the citizens' committee that all danger will have passed before the date set for the president's arrival and that the

party may come to New Orleans and travel over the state without risk, show the confidence entertained by the federal authorities that henceforth there will be a rapid improvement in conditions.

Dr. White has not yet heard from the Arkansas authorities in regard to a telegram asking if the president would be allowed to enter Arkansas after leaving New Orleans on Oct. 24. If the Arkansas authorities do not consent it is the president's intention to pay a special visit to Louisiana and Arkansas later in the season after the Arkansas panic has passed.

Fever Cases in Mississippi.
Jackson, Miss., Sept. 20.—The Mississippi yellow fever summary for the past twenty-four hours is as follows: Natchez, 2 new cases, 1 new sub-foci; Gulfport, 1 new case; Mississippi City, 2 new cases; Vicksburg, 6 new cases.

SOME KNOTTY POINTS

STAND IN WAY OF AN AGREEMENT BETWEEN NORWAY AND SWEDEN.

PROGRESS OF NEGOTIATIONS

COMMISSIONERS AT KARLSTAD STILL DISCUSSING MAIN QUESTIONS.

London, Sept. 20.—The correspondent of the Times at Karlstad thus sums up the progress of the Swedish-Norwegian negotiations:

"An agreement on the two principal questions is still, in some technical respects, under discussion, and there are other knotty points on which an understanding has not yet been reached. There is, however, every hope that a final agreement will be attained ere long."

Karlstad, Sweden, Sept. 20.—The Swedish and Norwegian commissioners occupied Tuesday in unofficial conferences and there was no joint meeting. It is not expected that a preliminary agreement will be reached until Thursday.

Christiania, Sept. 20.—The Aftenposten declares that though during the negotiations at Karlstad no troops either Swedish or Norwegian will be ordered to the frontier and though the frontier guards on both sides will withdraw to a distance sufficient to prevent collisions, there is as yet no question of sending the troops home.

CITY OFFICIALS INDICTED.

Those of Chisholm, Minn., Accused of Malfeasance in Office.

Duluth, Sept. 20.—President William Grant, with Trustees W. J. Smart and Oscar Wilberg of the village of Chisholm, Minn., and W. A. Kelley, manager of a street carnival recently held at that place, and M. McLain of the carnival company are charged in indictments returned in the district court before Judge Carnt here Tuesday with crimes connected with the carnival and the village officials with malfeasance in office in addition. The charges in connection with the carnival embrace indecent exhibitions and operation of gambling devices. E. J. Matheson and James Crowley are also charged with selling liquor without a license. Grant, Smart and McLain appeared in court and pleaded not guilty. Matheson furnished \$200 bail and will plead later. The others have not as yet been apprehended. Grant's bail amounted in all to \$2,950 on the four different charges.

COSTLY FIRE AT ST. PAUL.

One Hundred Thousand Dollars' Worth of Property Destroyed.

St. Paul, Sept. 20.—The plant of the Anchor Silver Plate company on West Water street, West Side, was entirely destroyed by fire at 11 o'clock Tuesday night, causing a loss of \$112,000, the total amount of the insurance carried by the company.

The fire started at the bottom of the elevator shaft and seemed like a small blaze where oil and grease had been dropping for some time, but an explosion soon scattered burning oil all over the building and in a short time the whole building was in flames and was soon burned down.

WOULD NOT ASSIST THE SYLPH.

Captain Hotville of the Otteri Has His License Revoked.

Washington, Sept. 20.—The failure of Captain W. H. Hotville, as master of the United Fruit company's ship Otteri, to give assistance to the president's yacht Sylph, which was disabled off the coast of North Carolina on the night of April 12, has cost him his position through the revocation of his license by the United States steamboat inspection service. This action was taken by inspection officers at Norfolk, Va., on Sept. 12 and the action made public Tuesday by the department of commerce and labor. The distress of the Sylph occurred while Lieutenant Evans was bringing the vessel up the coast from Florida, where it had been used by Mrs. Roosevelt and the White House children for a cruise. It appears from the evidence gathered by the steamboat inspection service that Captain Hotville made little effort to aid the Sylph. The accusation of Lieutenant Evans and the reply of Captain Hotville do not materially differ except that Hotville offered an excuse for his action. In the inspection service, it is said, this excuse was the most damaging evidence obtained. The Sylph was taken in tow by the El Cid, and Lieutenant Evans says he is convinced that had not that vessel come to his assistance the Sylph and all on board her would have been lost.

The Kind of Girl to Marry.

Max O'Rell, the French humorist, interviewed, says a Paris letter, recently published the perfect wife as follows: "Marry a woman smaller than yourself. Do not marry a woman whose laugh is forced and does not spring from the heart, but marry a woman who enjoys a joke and looks on the bright side of everything. Marry a girl who is a bit of a philosopher. If you take a girl to the theater and on hearing there are no seats in the stalls or circle she gayly exclaims, 'Never mind, let us go into the gallery,' marry her. It will be easy to live with a girl willing to sit even on back benches with her husband. Do not marry a girl who has the fast ways of what is called smart society. If you go to pay a visit and must wait half an hour while she finishes her toilet do not marry her. But if she comes to you immediately, her hair put up in a hurry, but neatly and simply dressed, she is a girl of common sense. Marry her, especially if she is not too prolix in her excuses for appearing in negligee. Marry a girl who cares a lot for her father, who takes an interest in seeing that his study is in order, who likes to sit on his knee and who calls him all sorts of loving and infantile names."

WOMEN WHO WORK

Need Strong, Vigorous Nerves.

The life of women and girls who work is at best a hard one and even under the most favorable circumstances the results often show shattered nervous systems and broken down health. To meet the conditions required of her, to sustain the extra strain and nervous tension of duties never intended for her in the plan of nature, she must use every endeavor to preserve the vitality of her nerves and the regularity of the female functions. No remedy ever offered the world has accomplished the wonderful results obtained from the use of Dr. A. W. Chase's Nerve Pills. By supplying the nerves and blood with the elements necessary to their life and activity, they cause a steady increase of natural strength to both body and mind, brighten the eyes, clear the complexion and instead of a depressed, worn-out feeling, there will be one of buoyancy and life. Dr. A. W. Chase's Nerve Pills make life worth living.

Mrs. Anna Doretz, of No. 919 Cleveland Avenue, Niagara Falls, N. Y., says: "I was overtaxed with work and completely tired out. I used to go to bed to think and worry and could not sleep as a result and I was nervous during the day. Hearing of the good effects of Dr. A. W. Chase's Nerve Pills in such afflictions I determined to try them. I got a box and they were a complete success. They toned me up quickly. I got over the nervousness and sleep finely and restful again. I am sure I am glad to recommend them." 50c a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. This Stream Runs Up Hill.

One of the few instances of a stream running up hill can be found in White county, Ga. Near the top of a mountain is a spring, evidently a siphon, and the water rushes from it with sufficient force to carry it up the side of a very steep hill for nearly half a mile. Reaching the crest, the water flows on to the east, and eventually finds its way to the Atlantic ocean. Of course it is of the same nature as a geyser, but the spectacle of a stream of water flowing up a steep incline can probably be found nowhere else in the country and appears even more remarkable than the geysers of the Yellowstone.

A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. H. P. Dunn & Co.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CALUMET Baking Powder

complies with the pure food laws of all states. Food prepared with it is free from Rochelle salts, lime, alum and ammonia.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.
